Print

Coastal Synthesis Workshop: Logistics

What We Will Be Covering

To maximize productivity, this workshop will be limited to ~50-75 participants. We have funds to cover the following:

- Meeting room space and A/V equipment
- Meals during the meeting: Starting with dinner on Saturday Dec. 11 (workshop begins after lunch) and going through lunch on Sunday Dec. 12 (workshop will adjourn Sun. afternoon and participants will be on their own for dinner)
- Given that we have a set budget for this meeting, we will offset participant hotel costs for this meeting at whatever level possible, depending on the number of participants and catering and meeting room costs. We recommend that workshop participants who are attending the AGU meeting make their hotel arrangements via the AGU housing reservation system (deadline: November 1) and we will reimburse hotel costs for this meeting (1-2 nights) at whatever level we can after the meeting. For those NOT attending AGU, please book your own hotel rooms.

Airport and Ground Transportation

The closest airport is San Francisco International Airport (SFO).

Ground transportation to/from San Francisco airport

- Super Shuttle (San Francisco/SFO)
  SuperShuttle has extended a 15% discount on all services valid for travel dates between December 6-17,2010.
  The discount code is PJDNV and your direct link is https://www.supershuttle.com/default.aspx?GC=PJDNV
- The BART (Bay Area Rapid Transit)
- Other ground transportation options to/from downtown San Francisco

Workshop Venue

The workshop will be held at the Courtyard Marriott at 299 Second Street in San Francisco. This hotel is included in the AGU housing reservation system.
