Woods Hole Sea Grant: Ocean Engineering

Techniques for Nearshore Oceanographic Instrument Installations
Spencer, W.D.
Diving for Science...89, Proceedings of the American Academy of Underwater Sciences, Ninth Annual Scientific Diving Symposium, Woods Hole, MA, pp. 297-308, 1989 WHOI-R-89-016

A CCD Chirp-Z FFT Doppler Signal Processor for Laser Velocimetry
Agrawal, Y.C.
J. Phys. E: Sci. Instrum., Vol. 17, pp. 458-461, 1984 WHOI-R-84-003

Directional Laser Velocimetry without Frequency Biasing: Part 2
Agrawal, Y.C. and J.B. Riley
Applied Optics, Vol. 23, pp. 57-60, 1984 WHOI-R-84-001

Directional Pedestal-free Laser Doppler Velocimetry without Frequency Biasing: Part I
Agrawal, Y.C. and J.R. McCullough
Applied Optics, Vol. 20, pp. 1553-1556, 1981 WHOI-R-81-012

Jointing of Armored Polyethylene-insulated Cable to Neoprene Jacketed Connectors
Spencer, W.D. and D.G. Aubrey
Oceans, pp. 180-185, 1981 WHOI-R-81-007

Mooring Dynamics
Only available on loan from the National Sea Grant Library
Berteaux, H.O.
Air-Sea Interaction, pp. 681-699, 1980 WHOI-R-80-017

The Design, Construction and Testing of Loran-C from a Drifting Buoy
Only available on loan from the National Sea Grant Library
Collins, C.W. and R.G. Walden
Woods Hole Oceanographic Institution Technical Report WHOI-80-79, 32 pp., 1980 WHOI-T-80-006

Remote Acoustic Sensing of Oceanic Fluid and Biological Processes
Only available on loan from the National Sea Grant Library
Orr, M.H.
Woods Hole Oceanographic Institution Technical Report WHOI-80-2, 51 pp., 1980 WHOI-T-80-005

Seasonal Performance of a Brine Pond Solar Heat Collector in New England
Only available on loan from the National Sea Grant Library
Von Arx, W.S.
Woods Hole Oceanographic Institution Technical Report WHOI-80-16, 30 pp., 1980 WHOI-T-80-003

Handbook of Oceanographic Engineering Materials
Only available on loan from the National Sea Grant Library
Dexter, S.C.
1979 WHOI-B-79-002
This volume consists of two sections. Part A is a series of tabulations of metallic materials ranked according to selected mechanical and physical properties, corrosion resistance, and cost. Part B consists of one page of more detailed data on each of the materials covered. Composition, mechanical and physical properties, corrosion resistance, forms available, fabricability, typical uses and base cost are treated for each material. Part B also groups the materials are grouped into alloy classes according to the base metal of the alloy.

Dynamics of the Inclining Spar Current Senso -- Final Report
Only available on loan from the National Sea Grant Library
Rodenbusch, G. and J.W. Mavor Jr.
1977 WHOI-T-77-007

Development of an Acoustic Probe for Detailed Ocean Bottom and Sub-bottom Surveys
Only available on loan from the National Sea Grant Library
Dow, W.
1976 WHOI-T-76-001

A Digital Recording System for Marine Experimentation
Only available on loan from the National Sea Grant Library

Vandiver, J.K.
1973 WHOI-T-73-001

Handbook of Oceanographic Engineering Materials: Volume 1 - Metals and Alloys
Only available on loan from the National Sea Grant Library
Dexter, S.C.
1972 WHOI-T-72-004

Motion Sensitivity of Flame Ionization Detectors
Only available on loan from the National Sea Grant Library
Gularte, R.C.
1972 WHOI-T-72-003

Report of the Oceanographic Engineering Summer Project
Only available on loan from the National Sea Grant Library
Daubin, S.C. and A.J. Williams III
1971 WHOI-T-71-001

Ocean Engineering Lecture Notes
Only available on loan from the National Sea Grant Library
Daubin, S.C.
WHOI-E-68-001
