

Matthew J. Jenny, IV

45 Water Street, MS-#32, Woods Hole, MA 02543
phone: (508) 289-3020 fax: (508) 457-2134
email: mjenny@whoi.edu

MAJOR RESEARCH INTERESTS:

My primary interests are in the field of environmental/ecological genomics; specifically in the development and utilization of genomic based approaches in marine organisms for a 'systems biology' approach towards understanding the interactions between ecosystem and organismal health. Related to this is a strong interest in the genomic and molecular processes involved in adaptation to environmental and ecological factors.

EDUCATION:

- 2005** **Ph.D., Molecular and Cellular Biology & Pathobiology**, Marine Biomedicine and Environmental Sciences Center, Medical University of South Carolina, Charleston, SC
Dissertation Title: Characterization of Metallothionein Gene Diversity in the American Oyster, *Crassostrea virginica*, by Genomic, Transcriptomic and Proteomic Approaches.
Advisor: Dr. Robert W. Chapman
- 1999** **M.S., Environmental Science, Toxicology focus**, Medical University of South Carolina/University of Charleston, Charleston, SC
Thesis Title: Effects of Ammonium Perchlorate on Thyroid Hormone Levels, Hematopoiesis, and Immune Status of Female B6C3F1 Mice
Advisor: Dr. Deborah Keil
- 1995** **B.S., Biology**, University of South Alabama, Mobile, AL
Minors in chemistry and anthropology

RESEARCH/WORK EXPERIENCE:

- 2005-** **Postdoctoral Investigator**, Woods Hole Oceanographic Institution, Woods Hole, MA
• Characterization of *AhR/AhRR* pathway in zebrafish, *Danio rerio*
• RNA knockdown and rescue
• Comparative fish genomics (*D. rerio*, *Fundulus heteroclitus*)
- 1999-2005** **Graduate Student**, Medical University of South Carolina, Charleston, SC
• Characterization of *metallothionein* gene diversity in the American oyster, *Crassostrea virginica*
• Establishment of an expressed sequence tag (EST) database for *Crassostrea virginica* (<http://www.marinegenomics.org>)
• Development and characterization of a *Crassostrea* cDNA microarray
• Development and characterization of *Crassostrea virginica* and *C. gigas* BAC libraries
- 1998-1999** **Research Assistant**, Medical University of South Carolina, Charleston, SC
• Characterization of effects of individual and mixed exposures to N,N-diethyl-m-toluamide (DEET), pyridostigmine bromide (PYR), and JP-8 jet fuel on immune function in B6C3F1 mice.

- 1997-1999** **Graduate Student**, Medical University of South Carolina, Charleston, SC
• Evaluation of the immunotoxicological effects of exposure to ammonium perchlorate in drinking water given to B6C3F1 mice.
- 1996-1997** **Laboratory Director**, Public Service District #1, Hilton Head Island, SC
• Responsible for the analysis of water and wastewater.
- 1993-1996** **Laboratory Manager**, AQUASTAR, Mobile, AL (subsidiary of TAI Env. Sciences, Inc.)
• Responsible for all aspects of aquaculture facilities including culture of marine and freshwater algae, breeding several species of freshwater and marine fish as well as several marine invertebrates including oysters, echinoderms, and several species of crustacea.
- 1989-1996** **Laboratory Supervisor**, TAI Environmental Sciences, Inc. Mobile, AL
• Development and implementation of QA/QC program based on GLP protocol.
Bioassay analysis of water and wastewater associated with NPDES protocol as well as soil and sediment testing under various EPA hazardous waste protocols.
Ecological assessment and benthic studies. 40 hour Corps of Engineers wetlands delineation course.

TEACHING/MENTORING EXPERIENCE:

- 2006** **Co-mentor**, Annie Brock, WHOI Undergraduate Summer Student Fellow
- 2004-2006** **Thesis Advisory Committee Member**, Andrew Baltzegar, graduate student, Grice Marine Laboratory, College of Charleston, Charleston, SC
- 2004 & 2005** **Guest Lecturer**, Immunology of Marine Organisms, College of Graduate Studies, Medical University of South Carolina
- 2004** **Co-mentor**, Latasha Amisial, graduate student rotation, Medical University of South Carolina
- 2003** **Guest Lecturer**, Genetics and Genomics, College of Graduate Studies, Medical University of South Carolina

PEER REVIEWED PUBLICATIONS:

Cole W. Matson, Bryan W. Clark, **Matthew J. Jenny**, Carrie R. Fleming, Mark E. Hahn, and Richard T. Di Giulio. (2008). Development of the morpholino gene knockdown technique in *Fundulus heteroclitus*: a tool for studying molecular mechanisms in an established environmental model. *Aquatic Toxicology* (submitted manuscript).

Jared V. Goldstone, Maria E. Jönsson, Bruce R. Woodin, **Matthew J. Jenny**, D. R. Nelson, and John J. Stegeman. (2008). A new cytochrome P450 1 subfamily, CYP1D, similar to CYP1As: Constitutive expression in zebrafish and relationship to a human CYP pseudogene. *Gene* (in revision).

Brad R. Evans, Sibel I. Karchner, Lenka L. Allan, Richard S. Pollenz, Robert L. Tanguay, **Matthew J. Jenny**, David H. Sherr, and Mark E. Hahn. (2008). Repression of aryl hydrocarbon receptor (AHR) signaling by AHR repressor (AHRR): Role of DNA binding and competition for ARNT. *Molecular Pharmacology* 73(2): 387-398.
