

CHEN, JIA-LIN (Julie)

Assistant Professor, [Department of Hydraulic and Ocean Engineering - NCKU](#)
National Cheng Kung University, Taiwan

Education

Ph.D., Civil and Environmental Engineering

University of Delaware, USA | 2009-2014

M.S., Hydroinformatics and Water Management

Erasmus Mundus Joint Master Program, EuroAqua | 2005-2007

A master degree provided by Newcastle University (UK), University of Nice - Sophia Antipolis (FR), and Brandenburg University of Technology (DE)

B.S., Hydraulic and Ocean Engineering (Major) Computer Science (Minor)

National Cheng Kung University, Taiwan | 2000-2004

Professional experience

Postdoctoral Investigator

Applied Ocean Physics & Engineering, WHOI | Mar, 2015-Aug, 2016

Hydrodynamic and sediment transport modelling in Delaware Estuary

Engineer, Project Manager, Business Development Manager

DHI Singapore & Shanghai | 2007-2009

Mike by DHI Technique Support (Hydrodynamic/ Sediment transport modules)

Environmental Monitoring for Dredging & Reclamation

Global Tidal Energy Assessment, Hydraulic Assessment for Marina Design

Flood Risk Analysis/Flood Mapping

Professional Practice

DHI Headquarter, Denmark | Mar, 2007-Agu 2007

Data Assimilation for the North Sea Baltic Sea Tidal Forecasting System

Peer Reviewed Publications

Invited Seminars

1. University of Washington, 28th Mar, 2016 “Hydrodynamic and sediment transport in inlets and river mouths”
2. Louisiana State University, 29th Feb, 2016 “A field and numerical experiment in New River Inlet, NC”
3. MIT-WHOI Joint Program CODFL student seminar, 10th Apr, 2015 “Hydrodynamics, sediment transport, and morphological evolution in inlets and river mouths”
4. University of Maine, 8th Dec, 2015 “Hydrodynamic and sediment transport modeling in inlets and river mouths”
5. National Central University, 11th Jun, 2014 “Hydrodynamic and sediment transport modeling in New River Inlet, NC”
6. Hohai University, China. 20th May, 2014, “Hydrodynamic and sediment transport modeling in New River Inlet, NC”

Oral Presentations

1. A numerical investigation of wave-current interaction in New River Inlet using NearCoM-TVD – residual flow and sediment transport, *ONR annual review*, Navy League Building, Arlington, VA, April 2014.
2. Hydrodynamic modeling of New River Inlet using NearCoM-TVD -Model/data comparisons, *ONR annual review*, Navy League Building , Arlington, VA, April 2013.

Field Experiment

1. CTD cast, Newark Bay and Hudson River | June 29-30th, 2016
2. Cruise on R/V Sharp (CTD cast) Newark Bay and Hudson River | May 10-13th, 2016
3. Tripod deployment and sediment coring, Connecticut River | Sep 26-28th 2015
4. Drifter experiment, Katama Bay, MA | Aug 17th 2015
5. CT deployment and recovery, Connecticut River | June 17th 2015
6. Cruise on R/V Sharp (wave gauges recovery) Delaware Bay | Mar 23-25, 2015
7. Vectrino, PT, and OBS deployment in salt marsh, Kent County, Delaware | Mar 26th 2013, Oct 11-12th 2014

Modeling Skill

Non-hydrostatic Navier-Stokes Solver: OpenFOAM, COBRAS, NHWAVE
Wave and circulation, sediment transport model:
NearCoM-TVD (Chen et al., 2014, *Coastal Eng.*), COWAST, FCVOM

Awards

Erasmus Mundus Scholarship, European Commission | 2007-2009
Two year full scholarship for Joint Master Program in Europe
The First Prize of 2004 English Presentation Contest | 2004
Taiwan international Group of American Society of Civil Engineers (ASCE)

Reviewer Service

Journal of Geophysical Research (AGU)
Ocean Modelling, Ocean Engineering, Estuarine, Coastal and Shelf Science (Elsevier)
Journal of Engineering Mechanics (ASCE)

Affiliation and Service

WHOI Postdoctoral Representative | Nov, 2015 - Oct, 2016
Section Convener, Young Coastal Scientists and Engineers Conference, North America | June, 2014
Vice President, Taiwanese Student Association at U of Delaware | 2010-2011
Program Assistant, DAAD (The German Academic Exchange Service) summer institute | summer, 2004
Public Representative, National Cheng Kung University Student Association | 2000-2001
