

WHOI post-doctoral association survey - December 2013

The WHOI PDA Committee: Elizabeth Harvey, Benjamin Harden, Francois Thomas, Colleen Durkin, Daniel Griffin, Tristan Horner, Beatrice Tomasi

*The WHOI PDA primary goals are to formally represent post-doc community and to assist in issues arising from work or family during your time at WHOI. Please feel free to approach any member of the committee with concerns or issues you would like the committee to address. This survey will help us design social and career enhancing events around the wants and needs of the current post-doc community. **Thanks in advance for your time.***

1. What department are you in (e.g. biology, chemistry, physics, etc)?

2. Over the past year there has been numerous social and career-oriented events for post-docs. Please order (1 - most through 5 - least) which events you would be most interested in participating in.

- _____ coffee hours
- _____ happy hours
- _____ career enhancement workshops
- _____ media relations
- _____ job application workshops
- _____ other workshops

Please use this space to add additional events you would like to see run in the future.

3. Generally, the PDA likes to arrange coffee hours to coincide with an outing (e.g. coffee on Atlantis, tour of the core repository, large animal necropsy), please let us know of places around WHOI that you are interested in exploring further.

4. Happy Hours are currently scheduled for Fridays starting at 4:30pm, once per month. Does this day and time work for you, or would some other time be more convenient?

Thank you for your participation. Please feel free to leave additional comments or concerns for the PDA committee here.
