

**Appendix IV**  
**CICOR Projects By Task, Theme and PI**

\*Note: The last column indicates where totals for some larger projects have been combined for convenience. For example, The 4 projects related to the National Office for Harmful Algal Blooms, 37122309-11, & 36 have been combined under one total. Only the last two digits of the account are referred to as the beginning numbers are the same for all CICOR accounts. Also, some projects are listed more than once because they fall under more than one theme.
