**SPECIAL TECH
TRANSFER EDITION**

WEDNESDAY

Oct. 10, 2018

6:30–8:00 p.m.

Bucatino Restaurant & Wine Bar

7 Nathan Ellis Highway, North Falmouth, Mass

Doors open at 6:00 p.m.

This is a FREE event.

Food and drinks will be available for purchase.

Some of the items in your pantry and medicine cabinet may contain algae-derived ingredients. How they got there might not have been as straightforward as you'd imagine. Come hear of WHOI Marine Chemist Chris Reddy's journey from tracking climate history written in ocean sediments to formulating green cosmetics, with a visit to biofuels in between. Learn a bit about the sometimes winding road from research findings to commercial products with impact.

You must RSVP for this event: give.who.edu/ocean-science-cafe
