---

### 1. Purpose

The purpose of this procedure is to establish qualifications for crane operators aboard R/V Armstrong.

### 2. Responsibility

It is the responsibility of the Chief Mate to establish standardized training and certification for crane operators aboard R/V Armstrong. The Chief Mate, Bosun, or qualified Able-bodied Seaman may conduct crane training.

### 3. General

In accordance with the vessel Safety Management System, all crane operators aboard R/V Armstrong must be certified prior to operating the equipment.

The following requirements must be satisfied:

- A. Demonstrate knowledge of the basic hand signals as described on page 4-4 of the RVOC Safety Manual.
  - 1. Hoist load
  - 2. Lower load
  - 3. Boom up
  - 4. Boom down
  - 5. Slew boom
  - 6. Stop
  - 7. Emergency stop
  
- B. Operate the crane to the satisfaction of the examiner. A practical test will include the following:
  - 1. Starting and stopping the crane
  - 2. Physically following each of the hand signals in section "A" above, both with and without a load.
  - 3. Demonstrate knowledge of location and how to operate the emergency stop.
  - 4. Show location and use of boom angle indicator.
  - 5. Show location and understanding of load charts posted at the crane controls and identify allowable weights to be lifted at several different boom angles and boom extensions.
  - 6. Demonstrate understanding of anti-two-block system (A2B) and load sensing equipment.
