

CICOR

Educational Activities

[Postdoctoral Scholars](#)

CICOR funds several post doctoral scholars who are working with WHOI PIs on activities related to CICOR's three broad themes. A CICOR Post-Doctoral Scholar is expected to be active in research and publication and to advance these collaborations.

[Graduate Students](#)

Graduate Student Researchers are associated with the research activities related to CICOR themes.

[Summer Student Fellows](#)

Beginning in the Summer of 2005, CICOR will support three Summer Student Fellows, one in each of CICOR's three themes.

[K-12 Support](#)

A strong education and outreach effort within CICOR is its involvement in the NOAA Teacher-at-Sea program.

Each year, CICOR awards a savings bond for the best project in the area of Marine Sciences at the Falmouth High School Science Fair.
