

NOSAMS: WHOI/MBL Library NOSAMS BibApp

NOSAMS Related Research is a database of researchers and their publications related to radiocarbon analyses made at the [National Ocean Sciences Accelerator Mass Spectrometry Facility \(NOSAMS\)](#) located at the [Woods Hole Oceanographic Institution](#).

The searchable database may be accessed by clicking [here](#).

Goals

- Allow the scientific community to discover research that relies on radiocarbon analyses made at NOSAMS
- Find and track publications that demonstrate the impact of science supported by NOSAMS
- Help scientists to discover research and potential collaborators in their field

Features

- Locate researchers and publications by browse, basic or advanced searching
- Understand related NOSAMS publications trends over time
- Stay current with NOSAMS related research by subscribing to RSS feeds
- Create bibliographies using popular citation styles

Corrections

NOSAMS Related Research is a project maintained by NOSAMS administrators and the [MBLWHOI Library](#). If you are a NOSAMS client and notice any inaccuracies with your profile or your contributed works, please get in touch. This collection will continue to grow and we welcome any information or suggestions to make it better.
