

Woods Hole Sea Grant: Teacher Packet

While WHOI's educational focus is at the graduate and post-graduate level, the WHOI Academic Programs, Information, and Sea Grant offices, and the joint Marine Biological Laboratory/WHOI Library have contributed resources to assist educators in preparing curricula or teaching units on subjects in oceanography.

The teacher packet contains brochures about WHOI, its research projects, and its vessels and vehicles. It also contains information on marine careers, an interactive CD ROM on hydrothermal vents, and a directory of helpful WHOI Web links. Educators will also find information on professional development workshops and class visits to WHOI's Exhibit Center.

Single packets are available at no charge.

To request your teacher packet, contact:

WHOI Information Office
MS #16, 93 Water Street
Woods Hole, MA 02543
Phone: (508) 289-2252
Fax: (508) 457-2034
Email: information@whoi.edu

Thank you for your interest in the research taking place at WHOI and we hope that you will find the information included in the packet useful.
