A nonprofit, informational resource for members and other interested parties concerning the condition, development, and preservation of Chatham waterways and adjoining lands and to take action on these issues in furtherance of the Associations interest. Primary interest is the development of recreational and economic uses of the waterways compatible with the protection of the natural resources and the character of the area. Additionally, the Association has an interest in broader municipal issues that may have an impact on Chatham's maritime heritage or upon the natural environment of the community.

PUBLICATIONS: FCW has published "Decades of Dedication," the story of FCW volunteering to improve and protect the town's waterways and adjoining lands. FCW has also published "An Economic Study of the Town of Chatham, Massachusetts" for the purpose of identifying the town's most important economic assets in order to preserve them (available on request). The plan is to be used by the Board of Selectmen, those working on the town's long range comprehensive plan, other town officials and voters at town meetings, when facing decisions about handling the growing population pressures on the town.

FEES: Annual membership: Individual \$25, Family \$40.

SPECIAL PROGRAMS: FCW sponsored and helped bring to completion the Comprehensive Management Plan for Stage Harbor and is now working on its implementation and expansion to manage the South Coastal Chatham Waterways. Public forums on issues affecting coastal communities, such as Chatham, e.g.: water quality (drinking water, coastal embayments, nitrogen loading, wastewater management), coastal/barrier beach erosion, and aquaculture.
