

T. Aran Mooney Research

[Cephalopod Hearing](#)

Sensory capabilities of these ecological key animals

[Marine Mammal Hearing Diversity](#)

Examining the age old question of form and function and how they differ between species

[Marine Mammals and Noise](#)

Predicting the effects of noise exposures on marine mammal hearing

[\(Marine Mammal\) Temporal Resolution](#)

Comparative auditory temporal processing speeds of odontocetes and other taxa

[Bioacoustic Behavior](#)

Recording natural acoustic behavior of marine animals

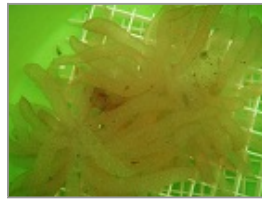

[Fisheries Bycatch and Depredation](#)

Investigating means to reduce bycatch and depredation

[Soundscapes and Passive Acoustics](#)

Monitoring changes in the acoustic ambient

[Ocean Acidification](#)
