

Synergy: Climate Art Pizza Night

ClimateArtPizza is a monthly brainstorming and networking dinner for scientists, artists and communicators focused on climate change. Whitney had the opportunity to join this group for several evenings in the fall of 2011. She found her discussions with the variety of creative people in attendance to be very stimulating. Encouragement from the other guests helped her further develop and pursue the concept of *Synergy*. She would like to thank Eli Kintisch for bringing a diverse community of creative minds together and fostering the cross-pollination of ideas.
