

Ocean Carbon and Biogeochemistry Workshop 2009: Poster Abstracts

Poster abstracts are due to Heather Benway (hbenway@whoi.edu) by June 30.

In your email submission, please be sure to note the session(s) to which your poster is most relevant. A list of sessions with detailed descriptions and relevant background material is available at: <http://www.whoi.edu/workshops/ocbworkshop2009/>

Abstracts should be 1 page or less of text in 12 point Times New Roman. Most of the poster boards are 4'W x 4'H exactly so the poster should be slightly smaller than that to fit right into the frame around the board. (These are new poster boards so different from the ones people might be used to who have come to WHOI in the past.) There is also limited space for larger posters on the walls.
