#### CONTACTS:

Julia G. Brody, Executive Director  
Cheryl Osimo, Cape Coordinator

HOURS: By appointment only.

Silent Spring Institute is a partnership of scientists, physicians, public health advocates, and community activists united around the common goal of identifying and changing the links between the environment and women's health, especially breast cancer. This collaboration began when activists from the Massachusetts Breast Cancer Coalition recognized the need for a new type of research organization to find preventable causes of breast cancer. The Institute is named in recognition of Silent Spring, Rachel Carson's pioneering book that tied the use of pesticides to adverse effects on wildlife.

The Institute's research projects investigate a number of issues key to determining how women are exposed to pollutants with potentially long-term health risks. This research is funded by organizations and individuals who are committed to furthering research on issues that affect women's health, and, in particular, on potential environmental links to breast cancer.

PUBLICATIONS: "Silent Spring Review," periodic; various reports and brochures; journal articles by research scientists

FEES: Donations accepted.

SPECIAL PROGRAMS: Various presentations, walks and races, fundraisers, traveling study atlas on Cape-specific breast cancer incidence, and more. Volunteer and internship opportunities available.
