

Woods Hole Sea Grant Education & Outreach

At WHOI Sea Grant, the goal of the Outreach, Education and Human Resources component is active and effective dissemination of Sea Grant information, research, and technology. By reaching out to audiences in an attempt to answer questions, increase environmental awareness, improve science literacy, and bridge the gap between marine research and an informed and knowledgeable public, the Sea Grant outreach effort is making significant contributions to citizens and organizations within the Commonwealth of Massachusetts as well as the northeast region and the nation.
