

d(evo)² Symposium Schedule

The Commons
Friday, August 17

- 1:00 pm
MEGAN SCHWARTZ – George Washington University/Smithsonian Institution
Heteronemertean Development
- 1:15
RYAN BICKEL – Princeton University
Expression of *Cornichon* in colonial ascidians
- 1:30
JOSEPH SMITH – University of Washington
Patterns of gene expression in crustacean limb development
- 1:45
GRETCHEN MOESER – University of Rhode Island
Coronin expression in solitary and colonial ascidian tadpoles
- 2:00
JOY FEATHERSTONE – University of Washington
Torsion and muscle development in the veliger of *Haminoea vesicula* (Gastropoda, Cephalaspidea)
- 2:15
JONATHAN HENDRICKS – Cornell University
Comparative morphological and developmental variation in juveniles and adults of *Haminoea vesicula* (Gastropoda, Cephalaspidea)
- 2:30
Break
- 3:00
ERIC BLACKSTONE – University of Washington
KENNY FERNANDEZ – University of South Carolina
Possible *Wolbachia* infection in *Katharina tunicata*
- 3:30
MICHELLE FISHER – University of Washington
Search for a snky ortholog in local marine organisms
- 3:45
DAGMAR GROSS – University of Washington
Muscle development in early stages of a bryozoan cyphonautes
- 4:00
CARTER TAKACS – Dartmouth College
Vasa and germline formation in indirect development
- 4:15
DEDE LYONS – Mount Holyoke College
Investigation of polychaete development and evolution
