

Sébastien Bertrand, Ph.D.

267 Veltwijcklaan
2180 Ekeren, Belgium
T: +32-477.216.930

E: sbertrand@whoi.edu
E': sebastien.bertrand@ugent.be

F: +32-9.264.4573
W: www.whoi.edu/people/sbertrand

Nationality: Belgian
ResearcherID: G-9744-2011

Date of birth: 12 June 1979
Place of birth: Namur, Belgium

Research interests

- Multiproxy sedimentary record of climate and environmental change (lakes, fjords and continental margins)
- Inorganic geochemistry, bulk organic geochemistry, grain-size, mineralogy, physical properties of sediments
- Paleoclimatology of southern South America

Education

February 2005	Ph.D. Geology (Sedimentology and paleoclimatology)	University of Liège , Highest honors (summa cum laude)
September 2002	M.Sc. Geology (DEA)	University of Liège , High honors
September 2001	B.Sc. Geology (Licence)	University of Liège , Highest honors

Professional experience

Research

Dec. 2009 – present	FWO postdoctoral fellow at the <i>Renard Centre of Marine Geology</i> , University of Ghent, Belgium. Also guest postdoctoral fellow at the <i>Woods Hole Oceanographic Institution</i> , MA, USA (2009-2012) and at the <i>Alfred Wegener Institute</i> , Bremerhaven, Germany (2009-2010). Late Quaternary paleoclimate and paleoenvironmental variability in southern South America: ocean-continent linkages.
Dec. 2008 – Nov. 2009	EU Marie Curie Postdoctoral research fellow at the <i>Alfred Wegener Institute</i> , Bremerhaven, Germany. CLIVASA project: The multi-proxy study of Chilean fjord sediments: a high-resolution record of CLImate VAriability in South America since the end of the Last Glacial Maximum (return phase). Advisor: F. Lamy
Nov. 2006 – Nov. 2008	EU Marie Curie Postdoctoral research fellow at the <i>Woods Hole Oceanographic Institution</i> , MA, USA. CLIVASA project: The multi-proxy study of Chilean fjord sediments: a high-resolution record of CLImate VAriability in South America since the end of the Last Glacial Maximum (outgoing phase). Advisor: K. Hughen
Nov. 2005 – Nov. 2006	BAEF Postdoctoral research fellow at the <i>Woods Hole Oceanographic Institution</i> , MA, USA. Late Holocene paleoclimate variability of southern Chile inferred from Chilean fjord sediments (44-47°S). Advisor: K. Hughen
Mar. 2005 – Oct. 2005	Postdoctoral Research Assistant at <i>Brunel University</i> (West London, UK). Reconstruction of the Late Holocene activity of the North Anatolian Fault from lake and coastal lagoon sediments, EU-FP5 RELIEF project. Advisor: S. Leroy
Oct. 2001 – Feb. 2005	PhD student at <i>University of Liège</i> , Belgium. Late Quaternary climate variability and seismotectonic activity in South-Central Chile (40°S) from Puyehue and Icalma lake sediment records. OSTC ENSO-Chile project. Supervisor: N. Fagel

Teaching and supervision

Oct. 2011 – present	Supervision of BSc student Astrid Bartels (UGent, Belgium): Distribution of volcanic ash soils in Northern Chilean Patagonia.
----------------------------	---

Oct. 2010 – present	Co-supervision of PhD student Willem Vandoorne (UGent, Belgium): High-resolution geochemical records from Lake Castor (Chile, 46°S)
Sep. 2009 – present	Supervision of BSc student Zakaria Ghazoui (ULB, Belgium): Mineralogy of Patagonian river sediments.
May 2008 – Aug. 2008	Training of WHOI research assistant Justin Ossolinski and summer Guest Student Kate Furby - trace element analysis of coral samples by ICP-AES
January 2008	Teaching of 3 classes ("Sedimentological proxies", "Paleoclimate reconstructions in southern Chile" and "Practical activities") during the Summer School "Cambio climático global: Una Perspectiva Paleoambiental" at the University of Concepción, Chile.
May 2007 – Aug. 2007	Co-supervision and training of WHOI summer Guest Student Alysha Coppola (trace element analysis of coral samples by ICP-AES: sample preparation, method development and data analysis).
Sep. 2003 – Sep. 2004	Supervision of B.Sc. student Julie Castiaux (University of Liège, Belgium) and of visiting M.Sc. student Alvaro Barrientos (University of Concepción, Chile).
Sep. 2000 – Apr. 2001	Teaching assistant in Sedimentary Petrology, University of Liège, Belgium. Prof. F. Boulvain.

Fieldwork and research cruises

Oct-Nov 2011	ADCP profiling and sampling of water and suspended particles in North Patagonian rivers. FWO project, 28 days, Chief scientist.
Jan-Feb 2011	Sampling of river and soil sediments in Northern and Southern Chilean Patagonia. Land-based fieldwork. CHILT FWO project, 20 days, Chief scientist (part 1).
Jan-Feb 2009	Sampling of river and soil sediments in Chilean Patagonia. LSG Caldera, LT Cabo Tamar and land-based fieldwork. National Geographic project # 8379-07, 30 days, Chief scientist.
January 2008	Coring of lakes in Northern Chilean Patagonia (Cochrane, Chile, 47°S) in collaboration with the EULA research center (Concepción, Chile), 10 days.
January 2007	Coring of lakes in Northern Chilean Patagonia (Coyhaique, Chile, 46°S) in collaboration with the EULA research center (Concepción, Chile) and the "Centro de Investigación en Ecosistemas de la Patagonia" (CIEP, Coyhaique, Chile), 15 days.
July 2005	Sediment sampling in the watersheds of Hersek costal lagoon and Lake Sapanca (Turkey). EU-FP5 RELIEF project, 10 days.
Dec. 2003	Sediment sampling in the watersheds of Puyehue and Icalma lakes, Chile, 10 days.
May-Jun. 2003	R/V Marion Dufresne, PICASSO and SEDICAR cruises. Sediment coring in the North Atlantic between Cancun, Mexico and Brest, France. Chief scientists: C. Laj (LSCE, Paris, France) and J.-F. Bourillet (IFREMER, Brest, France). IMAGES project (International Marine Past Global Change Study), 40 days.
Dec. 2001- Mar. 2002	Sediment sampling and lake coring in the Chilean Lake District (40°S). OSTC project "A Late Holocene Record of ENSO Variability in Southern Chile". Coordinator: M. De Batist, U. Ghent, 80 days.

External Research activities and participation to workshops

July 2011	Co-convener of session "Late Quaternary paleoclimate and paleoenvironmental change from high latitude Southern Hemisphere regions, including Antarctica". 18 th INQUA Congress, Bern, Switzerland. Co-convener: S. Roberts (British Antarctic Survey, UK)
Sep. 2010	Co-convener of session "Environmental catastrophes and their sedimentary records". 18 th International Sedimentological Congress, Mendoza, Argentina. Co-convener: M. Schwab (GFZ, Potsdam, Germany)
Sep. 2010	Convener of session "Inorganic geochemistry of siliciclastic sediments". 18 th International Sedimentological Congress, Mendoza, Argentina.
Dec. 2009	Convener of session "Late Quaternary paleoclimate and paleoenvironmental records in lakes from the southern Hemisphere". 11 th International Paleolimnology Symposium, Guadalajara, Mexico. Co-convener: K Saunders (Australia), E. Verleyen (Belgium) and S. Roberts (UK).

- Dec. 2009** Chairman of session "Magnetic susceptibility of Quaternary deposits". First IGCP-580 meeting: Magnetic susceptibility, correlations and paleoenvironments, Liège, Belgium.
- Sep. 2008** IODP-ICDP Workshop "Acquiring high to ultra-high resolution geological records of past climate change by scientific drilling", Potsdam, Germany, 3 days.
- April 2008** ESF EuroCLIMATE Spring School on "Late Quaternary timescales and Chronology", Piran, Slovenia, 5 days.
- May 2005** Workshop "Marine and continental paleoclimate records of Chile and Argentina". Gent, Belgium, 2 days.
- Sep. 2004** Chairman of session "Palaeoclimate and palaeoecology". Third Quaternary Research Association (QRA) international postgraduate symposium, Brussels, Belgium.
- June 2001** Co-leader (with C. Baeteman) of the Geologica Belgica Fieldmeeting: The western Belgian coastal plain, part 1: IJzer palaeovalley, Holocene geology and mapping.

Professional affiliations

European Geosciences Union (EGU), American Geophysical Union (AGU), International Association of Sedimentologists (IAS), Geochemical Society (GS)

Since September 2011 – Member of COST Action ES0907 (INTIMATE)

Skills

Technical experience

- Inorganic geochemistry: ICP-AES (JY Ultima-C, mono- and polychromator), iTrax XRF core scanner, ARL 9400 X-ray spectrometer, FAAS
- Bulk and clay mineralogy: X-ray diffraction (Bruker D8 Advance, Philips PW3710)
- Grain-size: Laser particle analyzers Malvern Mastersizer 2000, Coulter LS200, Coulter LS13320 and Ro-tap sieving
- Magnetic susceptibility, p-wave velocity and γ -density: Geotek multisensor track and Bartington MS2/3 meters.
- Organic geochemistry: Elemental analyzer and IR-MS (TOC, TON, $\delta^{13}\text{C}$ and $\delta^{15}\text{N}$), ASE (Accelerated Solvent Extractor), chromatographic separation

Informatics

- Design, creation and maintenance of URAP lab website (2001-2005)
- Responsible of URAP computer network (2001-2005)
- Good knowledge of: Word, Excel, Power Point, Frontpage, Grapher, SigmaPlot, Origin, Photoshop, CorelDraw, Global mapper, Ocean DataView, XLStat.

Languages

French (mother tongue); English (fluent knowledge); Spanish (functional knowledge); Dutch (basic knowledge)

Synergistic activities

- Reviewer for: US National Science Foundation, Quaternary Research, Quaternary Science Reviews, Quaternary International, Geochemistry Geophysics Geosystems, Nature, Nature Geoscience, The Holocene, Natural Hazards, Global and Planetary Change, Applied Geochemistry
- University of Liège, Doctoral college of Geology – PhD student co-representative (2003-2005)
- Organizer of the 4th WHOI Science Postdoctoral symposium (2007)
- WHOI Postdoctoral Association – Elected vice-president (2007-2008)
 - Marine Chemistry & Geochemistry department representative (Elected, 2007-2008)
- WHOI International Committee – Postdoctoral representative (2007-2008)
- Member of selection committee for a Professor in Sedimentary System Analysis (U. Ghent, 2011)
- PhD thesis committee member: J. Moernaut (U. Ghent, Geology, 2010), T. Verleye (U. Ghent, Geology, 2011)

- Master thesis committee member: W. Hertegonne (U. Ghent, Geology, 2009), M. Eekhaut (U. Ghent, Biology, 2010), Z. Verlaak (U. Ghent, Geology, 2011)

Publications

A. In peer-reviewed journals

1. BERTRAND, S., & BAETEMAN, C. (2005) — Sequence mapping of Holocene coastal lowlands. The application of the Streif's classification system in the Belgian coastal plain. *Quaternary International*, 133-134, 151-158.

63. BERTRAND, S., HUGHEN, K., SEPÚLVEDA, J., PANTOJA, S (2011) — Interactions between precipitation and sea surface temperature in Northern Chilean Patagonia during the Late Holocene. Goldschmidt conference, Prague, Czech Republic. Abstract and oral communication.

D. Theses, reports and field guides

1. BAETEMAN, C., & BERTRAND, S. (2001) — IJzer palaeovalley, Holocene geology and mapping. Geologica Belgica Field Meeting, 2nd June 2001, 19 p.
2. BERTRAND, S. (2001) — Evolution des environnements sédimentaires holocènes et cartographie par types de profils de la partie centrale de la paléovallée de l'IJzer (plaine côtière belge). BSc (licence) thesis, ULg, 54 p. + appendices.
3. BERTRAND, S. (2002) — Caractérisation des apports sédimentaires de la région des lacs, Chili méridional – Exemple des lacs Icalma et Puyehue. MSc (DEA) thesis, ULg, 51 p. + appendices.
4. BERTRAND, S. (2005) — Sédimentation lacustre postérieure du Dernier Maximum Glaciaire dans les lacs Icalma et Puyehue (Chili méridional) : Reconstitution de la variabilité climatique et des événements sismo-tectoniques. PhD thesis, ULg, 266 p.
5. BERTRAND, S., & LEROY, S. (2005) — Sedimentology of Hersek Lagoon, NW Turkey. Relationships with tsunamis in the Sea of Marmara. Report for the European Project RELIEF, 32 p. + appendices.
6. BERTRAND, S., BURNETT, A., SAUNDERS, K., STRIBERGER, J., AXFORD, Y., COULTER, S. (2008) — PAGES workshop report - ESF EuroCLIMATE Spring School: "Late Quaternary Timescales and Chronology" PAGES Newsletter 16 (3), 36-37.

E. Seminars and invited talks

November 2004 – University of Liège, Belgium. Paléoclimatologie en milieu lacustre. Seminars of the Department of Geology.

September 2005 – Brunel University, UK. The multi-proxy study of Lago Puyehue sediments: A record of millennial scale climate variability in Southern Chile since the Last Glacial Maximum. GESWAT seminars (Geography and Earth Sciences Weekly Afternoon Talks).

May 2006 – Woods Hole Oceanographic Institution, USA. Climate variability of southern Chile since the Last Glacial Maximum: A multiproxy sedimentological record from Lago Puyehue (40°S). Paleo-lunch seminars.

September 2006 – Massachusetts Institute of Technology, USA. Climate variability of southern Chile since the Last Glacial Maximum: A multiproxy sedimentological record from Lago Puyehue (40°S). E34 MIT Chemical Oceanography seminar series. Invited.

September 2006 – Brown University, Providence, Rhode Island, USA. Climate variability of southern Chile since the Last Glacial Maximum: A multiproxy sedimentological record from Lago Puyehue. Geological Sciences department. Invited.

October 2006 – Woods Hole Oceanographic Institution, MA, USA. Chilean fjord sediments: A high resolution record of paleoclimate variability in southern South America. 3rd WHOI Postdoctoral symposium.

January 2007 – Centro Atómico Bariloche, San Carlos de Bariloche, Argentina. The sedimentary record of Lago Puyehue. Laboratorio de Análisis por Activación Neutrónica. Invited.

October 2007 – Woods Hole Oceanographic Institution, MA, USA. Has it always been raining cats and dogs in Chilean Patagonia? Insights from lake and fjord sediments. 4th WHOI Postdoctoral symposium.

April 2008 – Woods Hole Oceanographic Institution, MA, USA. Paleoclimate reconstructions in Southern Chile: Insights from lake and fjord sediments. Marine Chemistry and Geochemistry Department weekly seminar.

October 2008 – Woods Hole Oceanographic Institution, MA, USA. High resolution paleoclimate reconstructions from lake and fjord sediments of southern Chile. 5th WHOI Postdoctoral symposium.

January 2009 – Alfred Wegener Institute, Bremerhaven, Germany. Sedimentary record of paleoclimate variability in southern Chile: Results from Lake Puyehue and the Patagonian fjords (Cimar Fiordo 7 and Nathaniel Palmer 0505 cruises). Department seminar.

November 2009 – Woods Hole Oceanographic Institution, USA. Paleoclimate and paleoenvironmental reconstructions from the fjords of Chilean Patagonia. Paleo-lunch seminars.

May 2010 – Skidaway Institute of Oceanography, GA, USA. The fjords of Northern Chilean Patagonia: Sedimentary geochemistry and sedimentary records of climate and environmental change. Institute seminar. Invited.

September 2010 – NIOZ (Netherlands Institute for Sea Research), Texel, The Netherlands. Sedimentary geochemistry of the Chilean fjords: Spatial variability and potential to reconstruct Holocene climate and environmental change. XRF core scanning workshop, Abstract and oral communication. Invited speaker.

September 2010 – CEREGE, Aix-Marseille, France. The fjords of Northern Chilean Patagonia: Sedimentary geochemistry and sedimentary records of Holocene climate and environmental change. Institute seminar. Invited.

September 2010 – EDYTEM, Université de Savoie, France. Sedimentary record of climate and environmental change in Chilean Patagonia during the Holocene. Institute seminar. Invited.

October 2010 – Universidad Católica del Norte, Coquimbo, Chile. The fjords of Northern Chilean Patagonia: Sedimentary geochemistry and sedimentary records of Holocene climate and environmental change. Institute seminar. Invited.

October 2010 – COPAS, Universidad de Concepción, Chile. Sedimentary geochemistry of the Chilean fjords: Spatial variability and potential to reconstruct Holocene climate and environmental change. Institute seminar. Invited.

June 2011 – ISMER, Université du Québec à Rimouski (UQAR), Canada. Sedimentary geochemistry of the fjords of Chilean Patagonia: Present-day dynamics and paleoclimate records. Institute seminar. Invited.

F. Dissemination articles

January 2009 – Reading the climatic signs. eStrategies, Projects 8, 77-79.

Awards and grants

September 2002 – Grant and medal « Clément Guion » for the best B.Sc. dissertation in Geology, University of Liège, Belgium.

June 2005 – BAEF Fellowship (Belgian American Educational Foundation) to support a one-year postdoctoral research stay at the Woods Hole Oceanographic Institution, USA. \$40,000

June 2006 – EU Marie Curie outgoing international fellowship to support a three-year postdoctoral research project at the Woods Hole Oceanographic Institution, USA (outgoing phase) and at the Alfred Wegener Institute, Germany (return phase). 257,000 €

December 2007 – National Geographic Society, Committee for Research and Exploration. Grant supporting a fieldwork expedition in the fjords of Chilean Patagonia. \$18,000

September 2009 – Flemish Research Foundation (FWO) postdoctoral fellowship to support a three-year postdoctoral research project at the Renard Centre of Marine Geology, University of Ghent, Belgium, with two 6-month research stays at the AWI, Germany and at WHOI, USA. 172,000 €

November 2010 — Flemish Research Foundation (FWO) research grant. Sedimentary geochemistry of North Patagonian rivers: Understanding the terrestrial processes recorded in Chilean fjord sediments. 29,100 €

June 2011 — Co-PI on French National Research Agency (ANR) project PARAD. Peat bog records of Atmospheric dust fluxes – Holocene paleoenvironmental and paleoclimatic implication for southern South America. Lead-PI: F. De Vleeschouwer, Ecolab, Toulouse. 383,020 €

December 2011 — Collaboration project with the Centro Atomico Bariloche, Argentina. Funding from COST action INTIMATE, ABEST, MINCyT and FWO. 14,500 €

December 2011 — Collaboration project with Ecolab, Toulouse, France. Funding from French and Flemish governments. 14,000 €
