

Thomas P. Connolly, Ph.D.
Department of Physical Oceanography
Woods Hole Oceanographic Institution
266 Woods Hole Road, MS #21
Woods Hole, Massachusetts 02543-1535
Phone: (508) 289-3847; Email: tconnolly@whoi.edu

Research interests

Dynamics and ecological impacts of physical processes in the coastal ocean. Inner shelf response to wind and surface waves, upwelling in submarine canyons, coastal trapped waves, effects of climate change, formation and transport of harmful algal blooms, and hypoxia.

Education

| | | |
|--------------------------|---------------------------|-------------|
| University of Washington | Oceanography | Ph.D., 2012 |
| University of Washington | Oceanography | M.S., 2008 |
| Stanford University | Environmental Engineering | B.S., 2002 |

Research experience

| | |
|---|--------------|
| Postdoctoral Scholar, Woods Hole Oceanographic Institution | 2012–present |
| Graduate Research Assistant, University of Washington | 2005–2012 |
| Summer Student Fellow, Woods Hole Oceanographic Institution | 2002 |

Peer-reviewed journal articles

Connolly, T. P., B. M. Hickey, I. Shulman, and R. E. Thomson. Coastal trapped waves, alongshore pressure gradients, and the California Undercurrent. *J. Phys. Oceanogr.*, *in press*.

Hickey, B. M., V. L. Trainer, P. M. Kosro, N. G. Adams, **T. P. Connolly**, N. B. Kachel, and S. L. Geier. 2013. Seasonal differences in sources of toxic *Pseudo-nitzschia* cells on Washington's razor clam beaches. *Harmful Algae*, 25, 1–14, doi:10.1016/j.hal.2013.01.006.

Connolly, T. P., B. M. Hickey, S. L. Geier, and W. P. Cochlan, 2010. Processes influencing seasonal hypoxia in the northern California Current System, *J. Geophys. Res.*, 115, C03021, doi:10.1029/2009JC005283.

Submitted manuscripts

Connolly, T. P. and B. M. Hickey. Regional impact of submarine canyons during seasonal upwelling. *Submitted to J. Geophys. Res.*

Other publications

Connolly, T. P., 2013. Increasing occurrence of coastal hypoxia and anoxia. In: Miller, I.M., Shishido, C., Antrim, L, and Bowlby, E.C. Climate Change and the Olympic Coast National Marine Sanctuary: Interpreting Potential Futures. Marine Sanctuaries Conservation Series ONMS-13-01. U.S. Department of Commerce, National Oceanic and Atmospheric Administration, Office of National Marine Sanctuaries, Silver Spring, MD. 232 pp.

Research Funding

Field observations of wave-induced bottom streaming over the inner continental shelf, T. P. Connolly, J. H. Trowbridge and S. J. Lentz, WHOI Coastal Ocean Institute, Four-month extension of postdoctoral scholarship. May–September 2014.

Fellowships and Awards

- USGS Postdoctoral Scholarship, Woods Hole Oceanographic Institution, 2012-present.
- Sarchin Graduate Fellowship in Oceanography, University of Washington, 2007.
- American Meteorological Society/Office of Naval Research Graduate Fellowship, 2005–2006.
- Summer Student Fellow, Woods Hole Oceanographic Institution, 2002.
- Tau Beta Pi National Engineering Honor Society, 2001

Teaching experience

Research advisor, independent undergraduate project, Riley Linder, University of Washington, Summer 2009–Spring 2010. Oversaw independent research project, originally funded by a Research Experience for Undergraduates grant from the Center for Oceans and Human Health. Guided calculation and mapping of geostrophic velocity and water properties. Demonstrated shipboard processing of CTD and ADCP data in the field. Provided feedback on written report and public oral presentation.

Teaching Assistant, Advanced Field Oceanography, University of Washington, Spring 2009. Senior undergraduates. Evaluated and critiqued senior thesis manuscripts and presentations. Led tutorials on data analysis. Guided interpretation of results in individual student meetings.

Teaching Assistant, Design of Oceanographic Field Experiments, University of Washington, Winter 2009. Senior undergraduates. Evaluated and critiqued senior thesis research proposals. Lectured on proposal writing and instrumentation. Assisted with cruise planning. Assisted with collection of field measurements. Designed class website and organized cruise blog.

Instrumentation advisor, Advanced Field Oceanography, University of Washington, Winter 2008. Assisted senior undergraduate in preparing equipment for drifter experiment. Prepared instructions for deployment, tracking and recovery. Responsible for equipment loaned to student.

Teaching Assistant, Geophysical fluid dynamics, University of Washington, Winter 2007. Graduate level. Led tutorial sessions. Graded and prepared answer keys for homework and exams. Lectured on shallow water equations and geostrophic balance.

Lectures, Woods Hole Oceanographic Institute

- Hypoxia in the coastal ocean, 2013 Summer Student Fellow Lecture Series
- Oceanographic questions in the Mid-Atlantic Bight, 2013 MIT/WHOI Joint Program Orientation Cruise

Guest Lectures, University of Washington

- Coastal circulation near Washington and British Columbia, Advanced Field Oceanography (senior undergraduates), Spring 2010
- Shelf hypoxia off the Washington/Oregon coast, Climate Change Impacts on Marine Ecosystems (junior and senior undergraduates), Spring 2010, 2011, 2012
- Lagrangian measurements, Coastal Oceanography (graduate level), Spring 2007, 2009
- Hypoxia off the Washington coast: Physical and biological process, Coastal Oceanography (graduate level), Spring 2009

Science instructor, Camp Sea Lab, Summer 2004–Spring 2005. Taught activities from the Marine Activities, Resources and Education (MARE) curriculum. Demonstrated scientific concepts such as “adaptation” and “buoyancy” to grade school students.

Field experience

July 2013, MIT/WHOI Joint Program Orientation, New England shelf break (SSV Corwith Cramer, 8 days), Assisted with cruise planning. Participated in science operations and sailing.

November 2009, Oceans and Human Health, Puget Sound, WA (R/V Thompson, 3 days). Assisted with cruise planning and trained students.

March 2009, student cruise, Kermadec Volcanic Arc, NZ (R/V Thompson, 10 days). Assisted with cruise planning and trained students.

January 2009, mooring cruise, WA shelf (R/V Centennial, 3 days). Mooring recovery and dissolved oxygen calibration.

July 2007, NOAA BIOTOX, WA and BC shelf (R/V MacArthur, 10 days). Assisted with cruise planning. Collected dissolved oxygen samples. Operated CTD. Tracked, deployed and recovered surface drifters.

September 2006, ECOHAB-PNW, WA and BC shelf (R/V Thompson, 21 days). Collected dissolved oxygen samples. Tracked, deployed and recovered surface drifters. Operated CTD.

August 2006, San Juan Islands, WA (R/V Centennial and small boats). Designed, assembled, deployed and recovered moorings with other students. Organized daily small boat CTD surveys.

September 2005, ECOHAB-PNW, WA and BC shelf (R/V Melville, 21 days). Tracked, deployed and recovered surface drifters. Operated CTD.

Outreach and Scientific Service

- Reviewer, Journal of Physical Oceanography, Geophysical Research Letters, Journal of Geophysical Research, Ocean Dynamics, Aquaculture Research
- Proposal Reviewer, National Science Foundation, Woods Hole Sea Grant, Oregon Sea Grant
- Volunteer, Geophysical Fluid Dynamics Laboratory Open House, Woods Hole Oceanographic Institution, May 2013
- Chapter Author, *Climate Change and the Olympic Coast National Marine Sanctuary: Interpreting Potential Futures*. Washington Sea Grant, 2013.
- Scientific Contributor, Physical summary and forecast. Pacific Northwest Harmful Algal Bloom Bulletin, 2009-2011.
- Reviewer, Sea Grant, *West Coast Regional Marine Research and Information Needs*. Sea Grant, 2009.
- Posters, Low oxygen and coastal upwelling in the Pacific Northwest, Centers for Ocean Sciences Education Excellence (COSEE), Communicating Ocean Sciences event, November 2008; University of Washington Science and Policy Summit, May 2011.
- Guest Speaker, Coastal Upwelling and Dead Zones - The Study of Hypoxia on Washington's Pacific Coast, WSU Beach Watchers Program, Anacortes, WA, May 2008
- Guest Speaker, Coastal upwelling in the Pacific Northwest, Ballard High School, Seattle, WA, February 2007
- Volunteer, Monterey Bay Aquarium, Fall 2004 - Spring 2005

Selected Conference Presentations

Connolly, T. P. and S. J. Lentz (2013) Interannual variability of temperature on the Martha's Vineyard inner shelf, Poster presentation, Gordon Research Conference – Coastal Ocean Circulation, Biddeford, ME.

Connolly, T. P. and B. M. Hickey (2012), Topographic effects on source water distribution over the Washington shelf, Poster presentation, AGU Ocean Sciences Meeting, Salt Lake City, UT.

Connolly, T. P. and B. M. Hickey (2011), Coastal trapped waves and the California Undercurrent, Oral presentation, Eastern Pacific Ocean Conference, Fallen Leaf Lake, CA.

Connolly, T. P. and B. M. Hickey (2011), Remote wind forcing of the California Undercurrent off Washington and British Columbia, Poster presentation, Gordon Research Conference - Coastal Ocean Modeling, Mount Holyoke, MA.

Connolly, T. P. and B. M. Hickey (2010), Seasonal upwelling over the Washington shelf: effects of submarine canyons and the California Undercurrent, Oral presentation, Eastern Pacific Ocean Conference, Timberline Lodge, Mt. Hood, OR.

Connolly, T. P., B. M. Hickey and S. L. Geier (2009), Physical and biochemical processes influencing hypoxia over the Washington continental shelf, Poster presentation, Gordon Research Conference - Coastal Ocean Circulation, New London, NH.

Connolly, T. P., B. M. Hickey and S. L. Geier (2008), Hypoxia and upwelling off the Pacific coast of Washington, Oral presentation, Fisheries and Marine Ecosystems Conference, Port Angeles, WA.

Connolly, T. P., B. M. Hickey and S. L. Geier (2007), Interannual variability in dissolved oxygen over the continental shelf of Washington, Oral presentation, Graduate Climate Conference, Pack Forest, WA.
