NOSAMS: The CFAMS/R.J. Schneider Award

The National Ocean Sciences Accelerator Mass Spectrometry facility (NOSAMS) is pleased to announce the CFAMS/R.J. Schneider Award

Goal: to encourage the development of novel continuous-flow AMS applications and new radiocarbon methodologies with applications to Earth, Ocean and Environmental sciences.

Prize: NOSAMS will award a prize of $1,000.

Nomination process: Nominations should include a 1-2 page nomination letter, along with the candidate’s CV and the most relevant publication(s). Submit nominations by December 15, 2018 to Sue Handwork (shandwork@whoi.edu). The intent is to reward early career scientists for published radiocarbon research carried out at NOSAMS. Present NOSAMS staff are not eligible. Self-nominations are welcome. The award will be announced in January 2019.

Evaluation Committee: Ann McNichol (NOSAMS), Mark Roberts (NOSAMS), Mark Kurz (NOSAMS), Brad Rosenheim (U. South Florida)
