

Many Cape towns considering municipal wind power are grappling with the same interconnection issues.

Join us in a discussion of current options and hear how some other communities have approached the subject.

Bring your questions and ideas.

D I R E C T I O N S

*The Cape and Islands Association of REALTORS
Conference Center
22 Mid Tech Drive, West Yarmouth*

FROM THE WEST: *Route 6 East to Exit 7 Willow Street.
Turn Left onto Willow Street. Left onto Higgins
Crowell Road. Left onto Mid-Tech Drive. The
Conference Center is the first Right.*

FROM THE EAST: *Route 6 West to Exit 7 Willow Street.
Turn Left onto Willow Street. Left onto Higgins
Crowell Road. Left onto Mid-Tech Drive. The
Conference Center is the first Right.*

P.O. Box 3092, Waquoit, MA 02536

*This workshop is a follow up to last June's
municipal wind workshop. This time we're zeroing
in on interconnection issues.
please share with your staff.*

Coastal Decision-Maker Workshop

*Sponsored by
Waquoit Bay National Estuarine Research Reserve
and
Cape and Islands Self Reliance*

Municipal Land-based Wind Workshop: Getting Plugged In

Friday, March 26, 2004
8:30 A.M. - 1:00 P.M.

*CCIAOR Conference Center,
West Yarmouth*

part of the continuing series
Entering the New Energy Age

MUNICIPAL LAND-BASED WIND WORKSHOP: GETTING PLUGGED IN

PROGRAM

8:30 am - 9:00 am Registration & Continental Breakfast 10:30 am - 11:15 am

9:00 am - 9:20 am Welcome and Town Updates

9:20 am - 10:20 am Setting the Stage on Interconnection Issues:
The State of the Commonwealth
This session will feature key players working on interconnection in Massachusetts and will include an overview of the issue as well as time for questions.
Frank Gundle, N-Star
Sam Nutter, Mass Technology Collaborative

10:20 am - 10:30 am Break 11:15 am - 12:15 pm

What can you expect to gain from attending this workshop?

*Learn more about options for interconnection for wind generation.
Explore collaborations in relation to wind generation on Cape Cod.*

Who should attend?

*Town Administrators
Town Planners, Engineers
Town Energy Committee Members
DPW Representatives*

Why?

Energy generation from wind is a local solution to lower long-term energy costs while reducing contributions to air and water pollution which affect the quality of life on Cape Cod.

12:15 pm - 1:00 pm

Are Municipal Light Districts A Viable Option in Massachusetts?

The Municipal Light District of Hull is so satisfied with their experience erecting the largest wind turbine in Massachusetts, they plan to add another one. Can the Hull experience be replicated in other towns? (The last Municipal Light District in Massachusetts was formed in 1926). Malcolm Brown, Board Member of the Hull Municipal Light District and Bob Bigelow from the Cape Light Compact will shed some light on this question.

Can Cape Cod Learn from the Toronto WindShare Experience?

Community shareholders participating in WindShare, a project developed by a neighborhood community group, financed the installation of two wind turbines in Toronto. Can their experience be applied to Cape Cod?
Dave Timm, Toronto Renewable Energy Cooperative

MTC Community Wind Initiative
Facilitated discussion, lunch provided

Last summer, the Massachusetts Technology Collaborative launched a new initiative to support communities exploring options for wind power generation. During this session, they'll give a short update on the progress of the program and solicit input on future directions.

Friday, March 26, 2004

8:30 a.m. - 1:00 p.m.
