

OBSIC

Ocean Bottom Seismometer Instrument Center Postdoctoral Scholar Fellowship

The newly formed **Ocean Bottom Seismometer Instrument Center (OBSIC)** at the Woods Hole Oceanographic Institution (WHOI) announces a competition for a Postdoctoral Scholar Fellowship. OBSIC's mission is to support discovery of the earth's internal structure and its dynamic processes using seafloor seismic measurements. (See <https://obsic.whoi.edu/>.) The OBSIC Postdoctoral Fellowship, recognizing the importance of marine seismology and ocean-bottom seismic instrumentation to continued discovery in Earth Sciences, aims to help maintain the strength of the field by supporting instrumentation-focused research and development.

- PROGRAM** You are invited to apply for this Fellowship for any project related to: 1) research and engineering in the area of seafloor seismic instrumentation, including the development and/or application of new sensors; 2) advancing our knowledge of earth structure with an emphasis on using ocean-bottom seismograph data, including the development and/or application of new analytical methodologies; 3) understanding earthquake-related processes using seafloor seismology and/or geodesy; 4) advancing our knowledge of the interplay between seafloor seismic measurements and oceanographic processes; and 5) other projects within this broad scope. The successful candidate may choose to carry out research with faculty in any of WHOI's science and engineering departments, with staff at the USGS Woods Hole Coastal and Marine Science Center, or a combination thereof.
- ELIGIBILITY** New or recent recipients of a doctoral degree with interests in the geophysical sciences or engineering are eligible. Usually, scientists with more than two to three years of postdoctoral experience are not considered eligible for these awards.
- STIPEND** Scholarships are awarded for 18-month appointments. Successful applicants will receive a stipend of **\$61,200** per year, and relocation and health and welfare allowances, as well as a modest research budget.
- APPLICATION** Completed applications will be accepted up to **October 15, 2019** for consideration for Postdoctoral Scholar Awards for 2020-2021. In addition to the application form, the following are required: a current CV or resume; a minimum of three non-WHOI recommendations; a concise statement describing research interests, in particular those that the applicant would like to pursue at the Woods Hole Oceanographic Institution, as well as more general career plans; and a brief synopsis of their doctoral dissertation. Announcement of awards will be made in December.
- TENURE** Recipients of awards can initiate their study and research period at the Institution any time after **January 1, 2020** and before **December 1, 2020**.

Further information and application forms may be obtained through the Academic Programs section of the WHOI web pages at <http://www.whoi.edu/postdoctoral>, or by contacting:
