

The Underwater United States

Exploring life and ecosystems in the U.S. exclusive economic zone

Kisha Santiago-Martinez

Chair, **MARCO** Management Board; and Deputy Secretary of State for Development, Planning, and Community Infrastructure at N.Y. State Department of State

Tim Shank

Associate Scientist and Deep-sea Biologist
Woods Hole Oceanographic Institution

Monday, June 29

1-2 p.m. EDT

Join us for a deep dive into a seldom-seen part of U.S. territory that is 1.5 times the size of the country's continental landmass. WHOI biologist Tim Shank will share images, videos, and insights from seafloor canyons off the U.S. East Coast that contain dramatic topography, diverse ecosystems, and abundant life, much of which is hidden from view beneath the ocean surface.

Research partly funded by MARCO and the Gordon and Betty Moore Foundation
