

RADIATION

IN OUR OCEAN, OUR PLANET, AND OUR LIVES

Ken Buessler

Marine radiochemist,
WHOI

Shaheen Dewji

Assistant professor of
Nuclear Engineering -
Health Physics,
Texas A&M Univ.

Ryo Morimoto

Nuclear anthropologist,
Princeton Univ.

We live on a radioactive planet. With the 10th anniversary of the accident at the Fukushima Dai-ichi nuclear power plant in Japan, we take a look at the radiation all around us—its natural sources, its human applications, and their impacts on us and our environment.

We'll also delve into some of the beneficial uses of radioactivity and the way we perceive—or mis-perceive—the threats that radiation poses.
