

OVSN UPDATE

The [Ocean Vital Signs Network \(OVSN\)](#) is hosting an annual WHOI-wide meeting to share on the latest from OVSN projects and to announce an upcoming internal funding opportunity.

OVSN is advancing the future of integrated ocean observing and modeling systems for tracking carbon and ecosystems at the regional scale.

As OVSN grows, we are looking to grow and mature the program with new ideas that link and expand current projects, while welcoming new ideas.

Friday, November 14

Redfield Auditorium, 1:00-2:30pm
